AVITA MEDICAL LIMITED

DIRECTORS' REPORT

Your Directors present their report with respect to the results of Avita Medical Limited (the "Company") for the year ended 30 June 2015 and the state of affairs of the Company at that date. Avita Medical Limited is a company limited by shares that is incorporated and domiciled in Australia. The Company has prepared this consolidated financial report incorporating the entities that it controlled during the financial period.

DIRECTORS

The names and details of the Company's Directors in office during the financial year and until the date of this report are as follows. Directors were in office for this entire period unless otherwise stated.

Lou Panaccio **(Chairman)**

Mr Panaccio, a successful healthcare businessman with extensive experience progressing companies from concept to commercialisation, was appointed to the role of Chairman of the Board, effective from 1 July 2014. Mr Panaccio replaces Mr Ian Macpherson who has served in the interim role since December 2013. Mr Panaccio possesses more than 30 years' executive leadership experience in healthcare services and life sciences, including approximately 15 years' board-level experience. Mr Panaccio is currently a Non-Executive Director of ASX50 company and one of the world's largest medical diagnostics companies, Sonic Healthcare Limited, where he has served since 2005. In addition to his Sonic Healthcare Limited role, Mr Panaccio is the Executive Chairman of Health Networks Australia Group, Non-Executive Director Yarra Community Housing, Non-Executive Director Inner East Community Health Service and Executive Chairman of Genera Biosystems Limited. He was also the Chief Executive Officer and an Executive Director of Melbourne Pathology for 10 years to 2001. Mr Panaccio has also served in executive and board roles with CPW Group, Monash IVF Group, Primelife Corporation Limited and other private entities. During the past three years Mr Panaccio has also served as a Director of the following other listed companies:

- Sonic Healthcare Limited * (appointed June 2005)
- Genera Biosystems * (appointed 25 November 2010)

* denotes current directorship

Ian Macpherson **(Deputy-Chairman)**

Mr Macpherson was appointed to the Board on 5 March 2008 following completion of the merger with Visiomed Group Limited. Mr Macpherson is a graduate from the University of Western Australia with a Bachelor of Commerce (B.Comm). He commenced his career in commerce in 1978 prior to entering the Chartered Accounting profession. In July 1990 he resigned from the partnership of Arthur Anderson and Co to establish the firm of Ord Partners, Chartered Accountants (subsequently Ord Nexia). In October 2010 Ord Nexia merged with MGI Perth and Mr Macpherson continued in a consulting role with the merged group until November 2011. Mr Macpherson was appointed Chairman of Avita Medical Limited for an interim period from 11 December 2013 to 30 June 2014.

Mr Macpherson advises on capital structuring, equity and debt raising, ASIC and Securities Exchange compliance procedures. He is a member of the Institute of Chartered Accountants in Australia and Australian Institute of Company Directors. During the past three years Mr Macpherson has also served as a director of the following other listed companies:

- Rubicon Resources Limited* (Appointed 18 October 2010)
- Navigator Resources Limited (Appointed 1 July 2003; Resigned 14 January 2013)
- Kimberley Rare Earths Limited (Appointed 2 December 2010; Resigned 29 November 2012)
- Red 5 Limited* (Appointed 5 April 2014)

* denotes current directorship

Fiona Wood **(Non-Executive Director)**

Winthrop Professor Wood was re-appointed to the Board on 11 April 2006 following her earlier resignation from the Board on 31 December 2005. Professor Wood is currently Director of the Western Australian Burns Service and a Consultant Plastic Surgeon at both the Royal Perth and Princess Margaret hospitals. She is the Chairman of the Fiona Wood Foundation formerly the McComb Research Foundation established in 1999 with co-founder Marie Stoner.

Professor Wood has been involved in a number of education and disaster response programs associated with her interest in burns and has published a variety of papers over the years. In addition, she has been the recipient of the 2003 Australian Medical Association "Contribution to Medicine" award and a Member of the Order of Australia for her work with Bali bombing victims.

Professor Wood was named West Australian of the Year in 2004 and 2005 and was named as Australian of the Year in 2005. Professor Wood is not a Director of any other listed company.

AVITA MEDICAL LIMITED
DIRECTORS' REPORT (continued)

Jeremy Curnock Cook
(Non-Executive Director)

Mr Curnock Cook was appointed to the Board on 19 October 2012 and is currently on a number of boards of International Healthcare and Biotechnology companies. He is the former head of the life science private equity team at Rothschild Asset Management, was responsible for the launch of the first dedicated biotechnology fund for the Australian market and the launch of a joint venture with Johnson & Johnson Development Corporation for the creation of Healthcare Ventures, an investment vehicle dedicated to seed stage investments in Europe, as well as the conception and launch of the International Biotechnology Trust. He is currently the Managing Director of Bioscience Managers Pty Ltd, responsible for the BM Asia Pacific Healthcare Fund. During the past three years Mr Curnock Cook has also served as a director of the following other listed companies:

- Bioxyme Ltd* (Appointed 7 May 2012 – resigned July 2014)
- Phylogica Ltd* (Appointed March 2012)
- AmpliPhi Bioscience Corporation Inc* (Appointed July 1995)
- Sea Dragon Marine Oils Ltd* (Appointed 15 October 2012)
- Eacom Timber Corporation (Appointed 1997 – resigned June 2013)
- Rex Bionics plc* (Appointed 27 February 2012)
- Adherium Ltd* (Appointed July 2015)

* denotes current directorship

Matthew McNamara
(Non-Executive Director)

Mr McNamara was appointed to the Board on 19 October 2012 and is currently the Chief Investment Officer and director of BioScience Managers Pty Ltd. Mr McNamara has over 25 years experience in the Healthcare & Medical Sciences sector. After initially being a Molecular Biology Research Assistant, he spent 11 years in Sales & Marketing and General Management with Merck & Co. and Johnson and Johnson Medical Pty. Ltd respectively. He has served as SVP Business Development of eBioinformatics Inc. and was CEO of a Life Sciences Venture Capital Fund, SciCapital Pty. Ltd. During the past three years Mr McNamara has also served as a Director of the following other listed companies:

- Sea Dragon Limited* (Appointed 5 October 2012)
- Bioxyme Limited (Appointed an Alternative Director 22 August 2013, resigned June 2014)

* denotes current directorship

Dr Michael Perry
(Non-Executive Director)

Dr Perry was appointed to the Board on 6 February 2013 and currently serves as Chief Scientific Officer of Global Cell and Gene Therapy for Novartis Pharmaceuticals Corp. From 2012 – 2014 he served as Vice President and Global Head of Stem Cell Therapy for Novartis Pharmaceuticals Corp, a US affiliate of Switzerland-based Novartis AG. Dr Perry, based in the United States, has previously served as the Global Head of R&D at Baxter Healthcare, President, Cell & Gene Therapy at Novartis affiliates Systemix and Genetic Therapy, Inc., VP Regulatory Affairs at Sandoz Pharmaceuticals Corp., Director of Regulatory Affairs at Schering-Plough Corporation, and Chairman, CEO or CMO at several early stage biotech companies. He also previously served as a Venture Partner with Bay City Capital, LLC based in San Francisco California. During the past three years Dr Perry has also served as a Director of the following other listed companies:

- Arrowhead Research Corporation* (Appointed December 2011)
- AmpliPhi Biosciences* (Appointed November 2005)

* denotes current directorship

COMPANY SECRETARY

Gabriel Chiappini BBus, CA, GAICD

Gabriel is a Chartered Accountant and member of the Australian Institute of Company Directors with over 20 years experience in the Commercial Sector. Over the last 15 years Gabriel has held positions of Director, Company Secretary and Chief Financial Officer in both public and private companies with operations in Australia, the United Kingdom and the United States. He has assisted a number of companies list on the ASX and been involved with equity raisings exceeding AUD\$250m. Gabriel has a sound understanding of the Australian Securities Exchange (ASX) Listing Rules and an in depth knowledge of the Corporations Act.

Gabriel currently manages his own consulting firm specialising in providing Director, company secretarial, corporate governance and investor relation services. He currently acts as a Director and Company Secretary for several companies listed on the ASX. Gabriel is currently Chairman of ASX listed company DMY Capital Ltd and a Non-Executive Director of Black Rock Mining Limited and Sunbird Energy Limited.

Interests in the Shares and Options of the Company

As at the date of this report, the interests of the Directors in the shares and options of the Company were:

	Number of Ordinary Shares	Number of Options over Ordinary Shares
I Macpherson	10,799,997	-
F Wood	723,365	-
J Curnock Cook ¹	-	-
M McNamara ¹	-	-
M Perry	-	-

1. 41,129,032 shares held in the name of One Funds Management Limited <Asia Pac Health Fund II A/C> are managed and beneficially owned by BioScience Managers Pty Ltd of which Mr Curnock Cook and Mr McNamara are officers.

EARNINGS PER SHARE

Earnings per share for the current year was a loss of 2.01 cents per share compared to a loss of 1.58 cents per share for the previous period. Weighted average number of ordinary shares on issue used in the calculation of basic loss and diluted loss per share is 353,085,392.

DIVIDENDS

Since the end of the previous financial period, no amount has been paid or declared by the Company by way of dividend.

EMPLOYEES

The number of full-time employees of the economic entity at 30 June 2015 was 21 (30 June 2014:21).

PRINCIPAL ACTIVITIES

The principal activities during the year of entities within the consolidated entity were:

- the commercialisation of the Company's regenerative product; and
- supply of spacers to the adult and adolescent respiratory market.

OPERATING AND FINANCIAL REVIEW

Group Overview

Regenerative Medicine

The Company develops and distributes tissue-engineered products for the treatment of wound and other skin defects. The lead product, ReCell® Autologous Spray-On-Skin, enables the collection of healthy skin cells for immediate treatment of existing scars created by burns, skin grafts, acne, acute wounds or surgery, and skin discolouration including leucoderma and vitiligo. The Company is focused on obtaining regulatory approval in key markets and establishing a commercial platform to successfully penetrate these markets. ReCell is cleared for sales in Australia (TGA) and Europe (CE marked). Clinical trials are underway worldwide to provide clinical evidence in support of marketing claims and to secure regulatory approvals.

Respiratory

The Company manufactures and sells a range of spacers for the paediatric, adolescent and adult market and is the leading provider of spacers in Australia. Products include the Funhaler® incentive asthma spacer, designed for the paediatric market, and Breath-A-Tech addressing the adolescent and adult markets.

Operating Results for the Year

Revenue from sale of goods was \$2,750,176, up 2.5% over the previous year (2014: \$2,683,133). Revenue from the sale of goods, other revenue and other income was \$2,979,164, a decrease of 9% over last year (2014: 3,277,714). Cost of sales were \$755,291 (2014: \$670,893) up 13% due to manufacturing cost gains while gross profits at \$1,994,885 (2014: \$2,012,240) decreased by only 9%. Normal operating costs were \$9,985,037 (2014: \$9,265,933) an increase of 8% compared to last year. This reflects management's plans to focus on global sales & marketing efforts and to complete clinical trials in Europe and China. The net loss before tax was \$7,761,164 up 17% on last year (2014: \$6,659,112).

Investments for Future Performance

The Company continues to focus on achieving sales penetration in the regenerative medicine and respiratory markets. The Company is directing its resources to a limited number of key markets, working with a small number of select distributors and, where warranted, the addition of dedicated sales consultants or product specialists will be considered. The Company has commenced several clinical trial programmes to further develop clinical evidence in key indications. The Company's strategy for its respiratory line of products is to continue to grow and solidify its dominant position in the Australia market.

Review of Financial Condition

Capital Structure

On 11 March 2015, the Company raised \$5,042,280 through a placement of 406,635,505 shares to sophisticated and institutional investors less capital raising costs of \$440,102. Subsequently, on 16 April 2015, the Company raised a further \$1,135,500 in a Share Purchase Plan through the issue of 18,314,508 shares less capital raising costs of \$135,276.

Cash from Operations

Net cash outflows used in operations decreased by 7.5% compared to the previous period, from \$6,924,939 in 2014 to \$6,407,437 in the current year.

Risk Management

The Board is responsible for overseeing the establishment and implementation of an effective risk management system and reviewing and monitoring the Company's application of that system. Implementation of the risk management system and day-to-day management of risk is the responsibility of the CEO, with the assistance of senior management as required. The Managing Director is responsible for reporting directly to the Board on all matters associated with risk management.

SIGNIFICANT CHANGES IN STATE OF AFFAIRS

During the 2015 financial year, the Company made a number of changes to its senior management structure and sales & marketing operating division in addition to the capital raising initiatives as outlined above. Otherwise there have been no significant changes in the state of affairs.

SIGNIFICANT EVENTS AFTER THE REPORTING DATE

Post year end, the Company initiated a significant US focused capital raising as a first phase of a planned US market uplist. On 31 August 2015 the company received a positive response from the Biomedical Advanced Research and Development Authority (BARDA) on a proposal to the US federal body exploring the possible use of ReCell under a disaster preparedness programme. Consequently the directors decided to place the US capital raise on hold pending the outcome of negotiations with BARDA. Other than this no matters or circumstances have arisen since the end of the reporting period which significantly affected or may significantly affect the operations of the Group, the results of those operations, or the state of affairs of the Group in future years.

LIKELY DEVELOPMENTS AND EXPECTED RESULTS

The Company continues to focus on achieving sales penetration in key approved markets and is also anticipating further regulatory approvals in a number of important global markets. Sales revenue is expected to increase during the next financial year as market penetration increases and approvals are received in new markets.

ENVIRONMENTAL REGULATION AND PERFORMANCE

The principal activities of the Company are not subject to any particular or significant environmental regulations.

SHARE OPTIONS

Unissued Shares

As at the reporting date, there were 9,441,250 unissued ordinary shares under options represented by:

1,000,000 exercisable at \$0.14 expiring 30 November 2015, issued to the ex Chief Executive Officer at the Annual General Meeting held on 30 November 2010.

1,660,000 exercisable at \$0.14 expiring 30 November 2016, issued to the ex Chief Executive Officer at the Annual General Meeting held on 30 November 2010.

1,406,250 exercisable at \$0.14 expiring 30 November 2017, issued to the ex Chief Executive Officer at the Annual General Meeting held on 30 November 2010.

375,000 exercisable at \$0.14 expiring 30 November 2018, issued to the ex Chief Executive Officer at the Annual General Meeting held on 30 November 2010.

150,000 exercisable at \$0.15 expiring 9 July 2015, issued to an employee on 9 July 2012.

1,800,000 exercisable at \$0.15 expiring 15 October 2018, issued to the Chief Financial Officer on 15 May 2013.

1,600,000 exercisable at \$0.16 expiring 28 February 2017, issued to several employees on 28 February 2014.

700,000 exercisable at \$0.175 expiring 28 February 2017, issued to an employee on 28 February 2014.

250,000 exercisable at \$0.10 expiring 30 June 2017, issued to the Chief Financial Officer on 15 December 2013.

250,000 exercisable at \$0.12 expiring 30 June 2017, issued to the Chief Financial Officer on 15 December 2013.

250,000 exercisable at \$0.14 expiring 30 June 2017, issued to the Chief Financial Officer on 15 December 2013.

Option holders do not have any right, by virtue of the option, to participate in any share issue of the Company or any related corporate body.

Shares Issued as a Result of the Exercise of Options

During the financial year and up to the date of this report, no options were exercised to acquire fully paid ordinary shares in the Company.

INDEMNIFICATION OF DIRECTORS AND OFFICERS

The Company has paid premiums in respect of Directors' and Officers' Liability Insurance and Company Reimbursement policies that cover all directors and officers of the Company to the extent permitted by law. The policy conditions preclude the Company from any detailed disclosures.

REMUNERATION REPORT (audited)

This Remuneration Report outlines the Director and Executive remuneration arrangements of the Company and the Group in accordance with the requirements of the *Corporations Act 2001* and its Regulations. For the purposes of this report Key Management Personnel (KMP) of the Group are defined as those persons having authority and responsibility for planning, directing and controlling the major activities of the Company and the Group, directly or indirectly, including any Director (whether Executive or otherwise) of the parent company.

For the purposes of this report, the term 'executive' encompasses the Chief Executive and Senior Executives of the Company and the Group.

Details of Key Management Personnel

(i) Directors

Lou Panaccio	Chairman (appointed 1 July 2014)
Ian Macpherson	Deputy-Chairman (Non-Executive)
Fiona Wood	Director (Non-Executive)
Jeremy Curnock Cook	Director (Non-Executive)
Matthew McNamara	Director (Non-Executive)
Michael Perry	Director (Non-Executive)

(ii) Executives

Adam Kelliher	Chief Executive Officer (appointed 13 April 2015)
Timothy Rooney	Chief Financial Officer / Chief Operations Officer (former Interim CEO)
Andrew Quick	VP Research & Technology
William Marshall	VP Operations
Justin McCann	VP Finance
Lorraine Glover	General Manager - Asia Pacific
Claire Darby	General Manager – EMEA
Lesley Whitlock	Sales & Marketing Director (left 28 November 2014)
Gabriel Chiappini	Company Secretary

There were no other changes of the CEO or Key Management Personnel after the reporting date and before the date the financial report was authorised for issue.

Update from Remuneration Committee

During FY15 the committee carried on with its report and recommendations from FY14 which was to act on the feedback received from shareholders and advisors following the remuneration strike received at the 2013 AGM. This resulted in the continuation of the freeze on short term incentives for existing senior personnel announced in 2014 and the implementation of Long Term Incentive Plan (LTIP).

The Company was also pleased to announce in FY15 the appointment of Mr Adam Kelliher as Chief Executive Officer. Adam joins the company having been a successful entrepreneur with a strong marketing background and a track record of creating and building life science companies. He previously founded Equateq Limited (2006), a cGMP-certified manufacturer providing super-pure fatty acids for the nutritional, pharmaceutical and research sectors which was sold to BASF in 2012. He also started Equazen Limited (2000), a leading omega-3 and omega-6 supplement company whose lead product, eye q™ for lipid deficiencies linked to learning conditions, and at sale was marketed in 16 countries. Equazen was sold to Galencia of Switzerland in December, 2007. Mr. Kelliher received a Master of Arts from the University of Auckland and is a graduate of the Entrepreneurial Development Program at the Massachusetts Institute of Technology, Sloan School of Management.

We identified a number of key areas for improvement which has resulted in a review of remuneration practices, policies and plans associated with KMP remuneration. So as to develop an appropriate foundation for future practices the Remuneration Committee has a formal Remuneration Governance Framework which, at the core, consists of:

- A revised Remuneration & Nomination Committee Charter which now mandates the development and maintenance of other Remuneration Governance Framework elements;
- A Senior Executive Remuneration Policy;
- A Short Term Incentive (STI) Policy & Procedure document; and
- A Long Term Incentive (LTI) Policy & Procedure document.

REMUNERATION REPORT (continued)

The Board addressed many of the concerns received from shareholders and undertook an independent review process with a focus on restructuring of both the STI and LTI policies with the review recommending that limited or no cash based STI should be offered (outside of contractual commitments).

Remuneration Committee

The Remuneration Committee of the Board of Directors of the Company is responsible for determining and reviewing remuneration arrangements for the Board and Executives.

The Remuneration Committee assesses the appropriateness of the nature and amount of remuneration of Executives on a periodic basis by reference to relevant employment market conditions with the overall objective of ensuring maximum stakeholder benefit from the retention of a high quality Board and executive team.

Use of Remuneration Consultants

During the financial year, the Group utilised the services of the Godfrey Remuneration Group to provide a report on bench marking of remuneration for senior executive roles and for assistance in preparing the remuneration report for the 30 June 2014 financial report. They were paid \$19,000 for their services. No other remuneration consultants have been used.

Company Performance and Links Between Performance and Reward

The following table outlines those measures of performance which are required to be displayed to shareholders under the Corporations Act, however at this stage in the Company's evolution the Board does not believe this perspective is particularly useful to shareholders. Therefore a discussion of Company performance during FY15 follows and should be considered in conjunction with the Operating and Financial review outlined on Page 6 of this report:

Financial Year	Net Loss after Tax (\$)	Loss per Share (cents)	Share Price (cents)
2015	7,107,496	2.01	7.2
2014	5,147,391	1.58	10.0
2013	8,092,939	2.69	13.0
2012	7,671,682	3.22	18.5
2011	1,796,920	1.56	11.3
2010	5,889,363	5.46	11.5
2009	5,128,292	5.49	10.0

There have not been any dividends paid during the period noted in the above table.

Remuneration Framework, Philosophy and Policies

The performance of the Company depends upon the quality of its Directors and Executives. To prosper, the Company must attract, motivate and retain highly skilled Directors and Executives.

To this end, the Company embodies the following principles in its remuneration framework:

- Provide competitive rewards to attract high calibre Executives;
- Acceptability to shareholders through transparency and engagement, and ensuring that remuneration frameworks and practices are appropriate to the circumstances of the Company as it evolves;
- Performance linkage and alignment of Executive compensation; and
- Establish appropriate, demanding performance hurdles in relation to variable Executive remuneration.

At this stage in the Company's development, the main focus of executives and of performance assessment is clinical trials, proof of concept, informing the market and establishing operations subsequent to the success of a proof of concept or clinical trials. Incentives are intended to be linked to shareholder value via milestone completion, clinical trial outcomes and total shareholder return (TSR).

REMUNERATION REPORT (continued)

Non-Executive Director Remuneration

Objective

The Board seeks to set aggregate remuneration at a level which provides the Company with the ability to attract and retain Directors of the highest calibre, whilst incurring a cost which is acceptable to shareholders.

Policy

The amount of aggregate remuneration sought to be approved by shareholders and the fee structure is to be commercially acceptable, competitive and subject to an annual review. The Board considers advice from external consultants as well as the fees paid to Non-Executive Directors of comparable companies when undertaking the annual review process.

Structure

In accordance with best practice corporate governance, the structure of Non-Executive Director and Senior Management remuneration is separate and distinct. The Constitution and the ASX Listing Rules specify that the aggregate remuneration of Non-Executive Directors shall be determined from time to time by a general meeting. The latest determination was at the Annual General Meeting held on 29 November 2005 when shareholders approved an aggregate remuneration of \$450,000 per year in respect of fees payable to Non-Executive Directors. Please refer to Table 2 of this report for the allocation of Directors' fees.

Each Director receives a fee for being a Director of the Company and includes attendance at Board and committee meetings. Any additional services provided are charged at a daily rate agreed in advance by the Chairman. The Non-Executive Directors do not participate in any incentive programs. These additional services provided are disclosed as other short term benefits in Table 1 of the remuneration report.

The remuneration of Non-Executive Directors for the year ended 30 June 2015 is detailed in Table 2 of this report.

Executive Remuneration (including Executive Directors)

Objective

The Company aims to reward Executives with a level and mix of remuneration commensurate with their position and responsibilities within the Company so as to:

- reward Executives for Company and individual performance against targets set by reference to appropriate benchmarks;
- align the interests of Executives with those of shareholders; and
- ensure total remuneration is competitive by market standards.

Policy

As disclosed in our Remuneration Committee Charter available on our website, the company's broad framework is noted below:

The committee is to ensure that:

- executive remuneration packages may involve a balance between fixed and incentive pay, reflecting short and/or long term performance objectives appropriate to the Company's circumstances and objectives;
- a proportion of executives' remuneration is structured in a manner designed to link reward to corporate and individual performances; and
- recommendations are made to the Board with respect to the quantum of bonuses to be paid to executives.

To the extent that the Company adopts a different remuneration structure for its Non-Executive Directors, the committee shall document its reasons for the purpose of disclosure to stakeholders.

REMUNERATION REPORT (continued)

Structure

The Remuneration Committee determines the level and make-up of the Chief Executive remuneration. The Committee takes advice from the Chief Executive with input from independent market remuneration advisers to set and approve all other executive remuneration. To assist in achieving the Company's objectives, the Remuneration Committee links the nature and amount of officers' emoluments to the Company's performance.

Remuneration may consist of the following key elements:

- Fixed Remuneration
- Variable Remuneration
 - Short Term Incentive (STI); and/or
 - Long Term Incentive (LTI).

The proportion of fixed remuneration and variable remuneration (potential short term and long term incentives) is established for each Executive by the Remuneration Committee annually. Table 2 details the fixed and variable components of the Executives of the Group and the Company.

Fixed Remuneration

Objective

The level of fixed remuneration is set so as to provide a base level of remuneration which is both appropriate to the position and is competitive in the market. During the 2015 financial year there were no benefits paid in kind (2014: nil).

Structure

Fixed remuneration is reviewed annually by the Remuneration Committee and the process consists of a review of company-wide and individual performance and relevant comparative remuneration in the market.

Variable Remuneration – Short Term Incentive (STI)

Objective

The objective of variable remuneration is to link the achievement of the Group's operational targets with the remuneration received by the Executives charged with meeting those targets. The Company's STI objectives:

- Motivate Senior Executives to achieve the short-term annual objectives linked to Company success and shareholder value creation;
- Create a strong link between performance and reward;
- Share company success with the Senior Executives that contribute to it; and
- Create a component of the employment cost that is responsive to short to medium term changes in the circumstances of the Company.

Structure

As disclosed in 2014, the Company undertook an external independent review and adopted its findings to put a freeze on its STI for executives and employees.

During FY15 the Company replaced its STI plan with a LTIP that will be rolled out during FY16 and focus on a number of targeted Key Performance Indicators (KPI) including financial and non-financial targets, corporate targets and individual measures of performance.

On an annual basis, after consideration of performance against KPI's, the level of variable remuneration (if any) is approved by the Remuneration Committee. Payments made are usually delivered as a cash bonus and options.

REMUNERATION REPORT (continued)

Variable Remuneration – Long Term Incentive (LTI)

Objective

The objective of the LTI plan is to reward Executives in a manner that aligns remuneration with the creation of shareholder wealth and to create an element of remuneration that supports the executive team working together to achieve this outcome over the long term. The LTI plan is also a key component of the Company's retention strategy.

Structure

The Company has two LTI plans available for use with senior executives and staff. At the 2014 AGM, shareholders approved a Performance Rights Plan. At the General Meeting of shareholders on 24 August 2015, shareholders approved a share loan plan for senior executives. The board plan on implementing and finalising the allocation of LTI securities during the second half of 2015.

LTI for 2015 financial year

There were no LTI securities issued during FY15, this was largely due to the company reassessing its remuneration mix and policy, as noted previously the Company now has two separate LTI plans that it can use as part of incentivising senior executives and staff.

REMUNERATION REPORT (continued)

Remuneration of Key Management Personnel

Table 1: Employment Contracts

The following table outlines the specified terms of the relevant employment contracts for the Key Management Personnel of the Company:

Role	Incumbent	Contract duration	Period of notice	Termination payments provided for by contract
CEO (from 13 April 2015)	Mr Adam Kelliher	Open ended contract	12 month notice period	12 months if notice given by either party
CFO / COO (former Interim CEO)	Mr Timothy Rooney	Open ended contract	6 month notice period	6 months if notice given by either party
All other executives	Mr Andrew Quick	Open ended contract	3 month notice period	Payment in lieu of notice only, no other benefits specified
	Mr William Marshall	Open ended contract	Nil month notice period	Payment in lieu of notice only, no other benefits specified
	Ms Lorraine Glover	Open ended contract	1 month notice period	Payment in lieu of notice only, no other benefits specified

Other KMP					
All	-	-	-	-	-
	11,523,362	-	-	-	11,523,362

All equity transactions with Key Management Personnel other than those arising from the exercise of remuneration options have been entered into under terms and conditions no more favourable than those the Group would have adopted if dealing at arm's length.

Other transactions with Key Management Personnel and their related parties

- (i) During the period fees of \$nil (2014: \$43,000) were paid, under normal terms and conditions, to the F.A.T.S Pty Ltd of which I Macpherson is a director.
- (ii) Former director Mr Dalton Gooding resigned on 30 June 2014, therefore Gooding Partners Chartered Accountants of which Mr Gooding is a partner, is no longer considered to be a related party. During the previous financial year a total of \$45,646 was paid, under normal terms and conditions, to Gooding Partners.

REMUNERATION REPORT (continued)

Table 7: Compensation options: Granted and vested during the year

	Number of options granted during the year		Number of options vested during the year	
	2015	2014	2015	2014
Executives				
T Rooney	-	750,000	500,000	1,050,000
A Quick	-	1,000,000	-	1,000,000
L Glover	-	700,000	-	700,000
J McCann	-	300,000	-	300,000
C Darby	-	300,000	-	300,000
L Whitlock	-	700,000*	-	200,000
W Dolphin	-	-	-	750,000

*700,000 options lapsed during the year due to cessation of employment

The total fair value of options granted during the year was \$nil (2014: \$162,319) which were allocated over the vesting period. It should be noted that while options are fully vested, no value can be obtained from them until there has been a significant increase in the share price, since the exercise price of the options materially exceeded the market price at the time of granting.

Details of options issued during the period:

No options were issued during the period.

There have been no alterations to the terms or conditions of the options granted as remuneration since the grant date.

END OF REMUNERATION REPORT

DIRECTORS' MEETINGS

The number of meetings of Directors (including meetings of Committees of Directors) held during the year and the number of meetings attended by each Director is as follows:

	Directors' Meetings	Meetings of Committees	
		Remuneration	Audit
Number of meetings held:	13	1	2
Number of meetings attended:			
Lou Panaccio	12	N/A	2
Ian Macpherson	13	1	2
Fiona Wood	5	N/A	N/A
Jeremy Curnock Cook	11	1	N/A
Matthew McNamara	11	N/A	2
Michael Perry	5	1	N/A

Compliance matters are dealt with under a standing agenda at regular Board meetings.

Committee Membership

As at the date of this report, the Company had an Audit Committee and a Remuneration Committee, however on a 'as required' basis, formally constitutes a Nominations Committee dealing with appointment of Executives and Directors.

Members acting on these committees of the Board at the date of this report are:

Audit	Remuneration
Ian Macpherson (c)	Ian Macpherson (c)
Matthew McNamara	Matthew McNamara (replaced Mike Perry on 3 August 2015)
Lou Panaccio (appointed 1 July 2014)	Lou Panaccio (replaced Jeremy Curnock Cook on 3 August 2015)

Notes

(c) Designates the Chairman of each Committee

AUDITOR INDEPENDENCE AND NON-AUDIT SERVICES

The Directors have obtained an independence declaration from our auditors, Grant Thornton Audit Pty Ltd, as presented on the following page of this report.

NON-AUDIT SERVICES

The Board of Directors, in accordance with advice from the Audit Committee, is satisfied that the provision of non-audit services during the year is compatible with the general standard of independence for auditors imposed by the Corporations Act 2001. The Directors are satisfied that the services disclosed below did not compromise the external auditor's independence for the following reasons:

- All non-audit services are reviewed and approved by the Audit Committee prior to commencement to ensure they do not adversely affect the integrity and objectivity of the auditor; and
- The nature of the services provided does not compromise the general principles relating to auditor independence in accordance with APES 110: Code of Ethics for Professional Accountants set by the Accounting Professional and Ethical Standards Board.

Signed in accordance with a resolution of the Directors.

Lou Panaccio

Chairman

**Auditor's Independence Declaration
To the Directors of Avita Medical Limited**

In accordance with the requirements of section 307C of the Corporations Act 2001, as lead auditor for the audit of Avita Medical Limited for the year ended 30 June 2015, I declare that, to the best of my knowledge and belief, there have been:

- a no contraventions of the auditor independence requirements of the Corporations Act 2001 in relation to the audit; and
- b no contraventions of any applicable code of professional conduct in relation to the audit.

'Grant Thornton' refers to the brand under which the Grant Thornton member firms provide assurance, tax and advisory services to their clients and/or refers to one or more member firms, as the context requires. Grant Thornton Australia Ltd is a member firm of Grant Thornton International Ltd (GTIL). GTIL and the member firms are not a worldwide partnership. GTIL and each member firm is a separate legal entity. Services are delivered by the member firms. GTIL does not provide services to clients. GTIL and its member firms are not agents of, and do not obligate one another and are not liable for one another's acts or omissions. In the Australian context only, the use of the term 'Grant Thornton' may refer to Grant Thornton Australia Limited ABN 41 127 556 389 and its Australian subsidiaries and related entities. GTIL is not an Australian related entity to Grant Thornton Australia Limited.

Liability limited by a scheme approved under Professional Standards Legislation. Liability is limited in those States where a current scheme applies.

**AVITA MEDICAL LIMITED
DIRECTORS' DECLARATION**

In accordance with a resolution of the Directors of Avita Medical Limited, I state that:

In the opinion of the Directors:

- (a) the financial statements and notes of the consolidated entity are in accordance with the *Corporations Act 2001*, including:
- (i) giving a true and fair view of the consolidated entity's financial position as at 30 June 2015 and of its performance for the year ended on that date; and
 - (ii) complying with Australian Accounting Standards (including the Australian Accounting Interpretations) and the *Corporations Regulations 2001*;
- (b) the financial statements and notes also comply with International Financial Reporting Standards as disclosed in note 2; and
- (c) there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.
- (d) this declaration has been made after receiving the declarations required to be made to the Directors in accordance with section 295A of the *Corporations Act 2001* for the financial year ending 30 June 2015.

On behalf of the Board

A handwritten signature in black ink, appearing to read 'Lou Panaccio', with a long horizontal stroke extending to the right.

Independent Auditor's Report To the Members of Avita Medical Limited

Report on the financial report

We have audited the accompanying financial report of Avita Medical Limited (“the Company”) and its controlled entities (“the Group”), which comprises the consolidated statement of financial position as at 30 June 2015, the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, notes comprising a summary of significant accounting policies and other explanatory information and the directors’ declaration of the consolidated entity comprising the Company and the entities it controlled at the year’s end or from time to time during the financial year.

Directors’ responsibility for the financial report

The Directors of the Company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the Corporations Act 2001. The Directors’ responsibility also includes such internal control as the Directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error. The Directors also state, in the notes to the financial report, in accordance with Accounting Standard AASB 101 Presentation of Financial Statements, the financial statements comply with International Financial Reporting Standards.

Auditor’s responsibility

Our responsibility is to express an opinion on the financial report based on our audit. We conducted our audit in accordance with Australian Auditing Standards. Those standards require us to comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance whether the financial report is free from material misstatement.

Grant Thornton Audit Pty Ltd ACN 130 913 594
a subsidiary or related entity of Grant Thornton Australia Ltd ABN 41 127 556 389

‘Grant Thornton’ refers to the brand under which the Grant Thornton member firms provide assurance, tax and advisory services to their clients and/or refers to one or more member firms, as the context requires. Grant Thornton Australia Ltd is a member firm of Grant Thornton International Ltd (GTIL). GTIL and the member firms are not a worldwide partnership. GTIL and each member firm is a separate legal entity. Services are delivered by the member firms. GTIL does not provide services to clients. GTIL and its member firms are not agents of, and do not obligate one another and are not liable for one another’s acts or omissions. In the Australian context only, the use of the term ‘Grant Thornton’ may refer to Grant Thornton Australia Limited ABN 41 127 556 389 and its Australian subsidiaries and related entities. GTIL is not an Australian related entity to Grant Thornton Australia Limited.

Liability limited by a scheme approved under Professional Standards Legislation. Liability is limited in those States where a current scheme applies.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error.

In making those risk assessments, the auditor considers internal control relevant to the Company's preparation of the financial report that gives a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Directors, as well as evaluating the overall presentation of the financial report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Independence

In conducting our audit, we have complied with the independence requirements of the Corporations Act 2001.

Auditor's opinion

In our opinion:

- a the financial report of Avita Medical Limited is in accordance with the Corporations Act 2001, including:
 - i giving a true and fair view of the Group's financial position as at 30 June 2015 and of its performance for the year ended on that date;
 - ii complying with Australian Accounting Standards and the Corporations Regulations 2001; and
- b the financial report also complies with International Financial Reporting Standards as disclosed in the notes to the financial statements.

Emphasis of matter

Without qualifying our opinion, we draw attention to Note 2(x) in the financial report which indicates that the Group incurred a net loss of \$7,107,496 during the year ended 30 June 2015 and, as of that date, the Group's cash outflows from operating activities equates to \$6,407,437. These conditions, along with other matters as set forth in Note 2(x), indicate the existence of a material uncertainty which may cast significant doubt about the Group's ability to continue as a going concern and therefore, the Group may be unable to realise its assets and discharge its liabilities in the normal course of business, and at the amounts stated in the financial report.

Report on the remuneration report

We have audited the remuneration report included in pages 8 - 17 of the Directors' Report for the year ended 30 June 2015. The Directors of the Company are responsible for the preparation and presentation of the remuneration report in accordance with Section 300A of the Corporations Act 2001. Our responsibility is to express an opinion on the remuneration report, based on our audit conducted in accordance with Australian Auditing Standards.

Auditor's opinion on the remuneration report

In our opinion, the remuneration report of Avita Medical Limited for the year ended 30 June 2015, complies with Section 300A of the Corporations Act 2001.

**AVITA MEDICAL LIMITED
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2015**

1. CORPORATE INFORMATION

The financial report of Avita Medical Limited ('the Company') for the year ended 30 June 2015 was authorised for issue in accordance with a resolution of the directors on 28 September 2015.

Avita Medical Limited, the parent entity, is a company limited by shares incorporated in Australia whose shares are publicly traded on the Australian Securities Exchange.

The nature of the operations and principal activities of the Group are described in the Directors' Report.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

a) Basis of preparation and statement of compliance

Avita Medical Limited is the Group's ultimate parent company and is a public company incorporated and domiciled in Australia.

The consolidated general purpose financial statements of the Group have been prepared in accordance with the requirements of the *Corporations Act 2001*, Australian Accounting Standards and other authoritative pronouncements of the Australian Accounting Standards Board ('AASB'). Compliance with Australian Accounting Standards results in full compliance with the International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB). Avita Medical Limited is a for-profit entity for the purpose of preparing the financial statements.

Except for cash flow information, the financial report has been prepared on an accrual basis and is based on historical costs, modified, where applicable, for financial liabilities and assets held at fair value through profit or loss and is presented in Australian dollars.

b) New and amended accounting standards and interpretations adopted by the Group

The Group has adopted all of the new, revised or amended Accounting Standards and Interpretations issued by the AASB that are mandatory for the current reporting period.

The adoption of these Accounting Standards and Interpretations did not have any significant impact on the financial performance or position of the Group.

c) New standards and interpretations not yet adopted

Australian Accounting Standards and Interpretations that have recently been issued or amended but are not yet mandatory, have not been early adopted by the Group for the annual reporting period ended 30 June 2015. Those that are relevant to the Group include:

- AASB 9 Financial Instruments (applicable to reporting periods on or after 1 January 2018)
- AASB 15 Revenue from Contracts with Customers (applicable to reporting periods on or after 1 January 2017).

The Group will adopt the above standards when they become mandatory but the impact has not yet been assessed by the Group.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(d) Basis of consolidation

The consolidated financial statements comprise the financial statements of Avita Medical Limited and its subsidiaries ('the Group') as at the reporting date each year.

The Parent controls a subsidiary if it is exposed, or has rights, to variable returns from its involvement with the subsidiary and has the ability to affect those returns through its power over the subsidiary. All subsidiaries have a reporting date of 30 June.

In preparing the consolidated financial statements, all intercompany balances and transactions, income and expenses and profit and losses resulting from intra-group transactions have been eliminated in full.

Subsidiaries are fully consolidated from the date on which control is obtained by the Group and cease to be consolidated from the date on which control is transferred out of the Group.

(e) Segment reporting

An operating segment is a component of an entity that engages in business activities from which it may earn revenues and incur expenses (including revenues and expenses relating to transactions with other components of the same entity), whose operating results are regularly reviewed by the entity's chief operating decision maker to make decisions about resources to be allocated to the segment and assess its performance, and for which discrete financial information is available. This includes start-up operations which are yet to earn revenues. Management will also consider other factors in determining operating segments such as the existence of a line manager and the level of segment information presented to the Board of Directors.

Operating segments have been identified based on the information provided to the chief operating decision makers – being the Chief Executive Officer.

The company aggregates two or more operating segments when they have similar economic characteristics, and the segments are similar in each of the following respects:

- Nature of the products and services;
- Nature of the production processes;
- Type or class of customer for the products and services;
- Methods used to distribute the products or provide the services; and if applicable
- Nature of the regulatory environment.

Operating segments that meet the quantitative criteria as prescribed by AASB 8 are reported separately. However, an operating segment that does not meet the quantitative criteria is still reported separately where information about the segment would be useful to users of the financial statements.

(f) Revenue recognition

Revenue is recognised and measured at the fair value of the consideration received or receivable to the extent it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured. The following specific recognition criteria must also be met before revenue is recognised:

Sale of goods

Revenue from the sale of goods is recognised when the significant risks and rewards of ownership of the goods have passed to the buyer and the costs incurred or to be incurred in respect of the transaction can be measured reliably. Risks and rewards of ownership are considered passed to the buyer at the time of shipment of the goods to the customer.

Royalty income

Revenue is recognised upon control of the right to receive the royalty income becoming unconditional.

Interest income

Revenue is recognised as interest accrues using the effective interest method.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(g) Government and other grants

Government grants are recognised when there is reasonable assurance that the grant will be received and all attaching conditions will be complied with.

When the grant relates to an expense item, it is recognised as income over the periods necessary to match the grant on a systematic basis to the costs that it is intended to compensate. Grants are not credited directly to shareholders equity.

When the grant relates to an asset, the fair value is credited to deferred income and is released to the profit or loss over the expected useful life of the relevant asset by equal annual installments.

(h) Leases

The determination of whether an arrangement is, or contains, a lease is based on the substance of the arrangement and requires an assessment of whether the fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset.

Group as a lessee

Finance leases, which transfer to the Group substantially all the risks and benefits incidental to ownership of the leased item, are capitalised at the inception of the lease at the fair value of the leased asset or, if lower, at the present value of the minimum lease payments. Lease payments are apportioned between the finance charges and reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are recognised as an expense in profit or loss.

Capitalised leased assets are depreciated over the shorter of the estimated useful life of the asset and the lease term if there is no reasonable certainty that the Group will obtain ownership by the end of the lease term.

Operating lease payments are recognised as an expense in profit or loss on a straight-line basis over the lease term. Operating lease incentives are recognised as a liability when received and subsequently reduced by allocating lease payments between rental expense and reduction of the liability.

(i) Cash and cash equivalents

Cash and cash equivalents in the consolidated statement of financial position comprises of cash at bank and in hand and short term deposits with an original maturity of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

For the purposes of the consolidated statement of cash flows, cash and cash equivalents consist of cash and cash equivalents as defined above, net of outstanding bank overdrafts. Bank overdrafts are included within interest-bearing loans and borrowings in current liabilities on the consolidated statement of financial position.

(j) Trade and other receivables

Trade receivables, which generally have 30-90 day terms, are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less an allowance for impairment.

Collectability of trade receivables is reviewed on an on-going basis at an operating unit level. Individual debts that are known to be uncollectible are written off when identified. An impairment provision is recognised when there is objective evidence that the Group will not be able to collect the receivable. Financial difficulties of the debtor, default payments and debts more than 90 days overdue may be considered objective evidence of impairment. The amount of the impairment loss is the receivable carrying amount compared to the present value of estimated future cash flows, discounted at the original effective interest rate.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(k) Inventories

Inventories are valued at the lower of cost and net realisable value.

Costs incurred in bringing each product to its present location and condition are accounted for at purchase cost on a first-in, first-out basis. Assembly costs as invoiced by a third party are factored into the cost of finished goods.

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

(l) Foreign currency translation

Functional and presentational currency

Both the functional and presentational currency of Avita Medical Limited and its Australian subsidiaries is Australian dollars (\$). The United Kingdom's subsidiary's functional currency is Pound Sterling and the United States' subsidiary's functional currency is United States Dollars. These are translated to the presentational currency (see below).

Transactions and balances

Transactions in foreign currencies are initially recorded in the functional currency by applying the exchange rates ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are retranslated at the rate of exchange ruling at the reporting date.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rate as at the date of the initial transaction. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined.

Translation of Group Companies functional currency to presentational currency

The results of the overseas subsidiaries are translated into Australian Dollars as at the date of each transaction. Assets and liabilities are translated at exchange rates prevailing at reporting date. Profit and loss items are translated at average rates and equity items are translated at the date of each transaction. Exchange variations resulting from the translation are recognised in the foreign currency translation reserve in equity.

On consolidation, exchange differences arising from the translation of the net investment in overseas subsidiaries are taken to the foreign currency translation reserve. If an overseas subsidiary were sold, the proportionate share of exchange differences would be transferred out of equity and recognised in profit or loss.

(m) Income tax and other taxes

Current tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities based on the current period's taxable income. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted by the reporting date. Included in income tax benefits are research and development claims.

Deferred income tax is provided on all temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred income tax liabilities are recognised for all taxable temporary differences except:

- when the deferred income tax liability arises from the initial recognition of goodwill or of an asset or liability in a transaction that is not a business combination and that, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; or
- when the taxable temporary difference is associated with investments in subsidiaries, associates or interests in joint ventures, and the timing of the reversal of the temporary difference can be controlled and it is probable that the temporary difference will not reverse in the foreseeable future.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(n) Income tax and other taxes (continued)

Deferred income tax assets are recognised for all deductible temporary differences, carry-forward of unused tax credits and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and the carry-forward of unused tax credits and unused tax losses can be utilised, except:

- when the deferred income tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; or
- when the deductible temporary difference is associated with investments in subsidiaries, associates or interests in joint ventures, in which case a deferred tax asset is only recognised to the extent that it is probable that the temporary difference will reverse in the foreseeable future and taxable profit will be available against which the temporary difference can be utilised.

The carrying amount of deferred income tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilised.

Unrecognised deferred income tax assets are reassessed at each reporting date and are recognised to the extent that it has become probable that future taxable profit will allow the deferred tax asset to be recovered.

Deferred income tax assets and liabilities are measured at the tax rates that are expected to apply to the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax assets and deferred tax liabilities are offset only if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred tax assets and liabilities relate to the same taxable entity and the same taxation authority.

Tax consolidation legislation

Avita Medical Limited and its wholly-owned Australian controlled entities implemented the tax consolidation legislation as of 1 July 2003.

The parent entity, Avita Medical Limited, and the controlled entities in the tax consolidated group continue to account for their own current and deferred tax amounts. The Group has applied the group allocation approach in determining the appropriate amount of current taxes and deferred taxes to allocate to members of the tax consolidated group.

In addition to its own current and deferred tax amounts, Avita Medical Limited also recognises the current tax liabilities (or assets) and the deferred tax assets arising from unused tax losses and unused tax credits assumed from controlled entities in the tax consolidated group.

Assets or liabilities arising under tax funding agreements with the tax consolidated entities are recognised as amounts receivable from or payable to other entities in the Group.

Any difference between the amounts assumed and amounts receivable or payable under the tax funding agreement are recognised as a contribution to (or distribution from) wholly-owned tax consolidated entities.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(o) Income tax and other taxes (continued)

Other Taxes

Revenues, expenses and assets are recognised net of the amount of GST except:

- when the GST incurred on a purchase of goods and services is not recoverable from the taxation authority, in which case the GST is recognised as part of the cost of acquisition of the asset or as part of the expense item as applicable; and
- receivables and payables, which are stated with the amount of GST included.

The net amount of GST recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the consolidated statement of financial position.

Cash flows are included in the consolidated statement of cash flows on a gross basis and the GST component of cash flows arising from investing and financing activities, which is recoverable from, or payable to, the taxation authority is classified as part of operating cash flows.

Commitments and contingencies are disclosed net of the amount of GST recoverable from, or payable to, the taxation authority.

(p) Plant and equipment

Plant and equipment is stated at historical cost less accumulated depreciation and any accumulated impairment losses.

Depreciation is calculated on a straight-line basis over the estimated useful life of the specific assets as follows:

Plant and equipment – over 2 to 5 years

The assets' residual values, useful lives and amortisation methods are reviewed, and adjusted if appropriate, at each financial year end.

Derecognition

An item of plant and equipment is derecognised upon disposal or when no further future economic benefits are expected from its use or disposal.

(q) Trade and other payables

Trade payables and other payables are carried at amortised cost and due to their short term nature they are not discounted. They represent liabilities for goods and services provided to the Group prior to the end of the financial year that are unpaid and arise when the Group becomes obliged to make future payments in respect of the purchase of these goods and services. The amounts are unsecured and are usually paid within 30 days of recognition.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(r) Interest-bearing loans and borrowings

All loans and borrowings are initially recognised at the fair value of the consideration received less directly attributable transaction costs.

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the effective interest method. Fees paid on the establishment of loan facilities that are yield related are included as part of the carrying amount of the loans and borrowings.

Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the reporting date.

Borrowing costs

Borrowing costs, other than borrowing costs relating to qualifying assets, are recognised as an expense when incurred.

(s) Financial Instruments

Recognition, Initial Measurement and Derecognition

Financial assets and financial liabilities are recognised when the Group becomes a party to the contractual provisions of the financial instrument, and are measured initially at fair value adjusted by transactions costs, except for those carried at fair value through profit or loss, which are measured initially at fair value. Subsequent measurement of financial assets and financial liabilities are described below.

Financial assets are derecognised when the contractual rights to the cash flows from the financial asset expire, or when the financial asset and all substantial risks and rewards are transferred. A financial liability is derecognised when it is extinguished, discharged, cancelled or expires.

Classification and Subsequent Measurement of Financial Assets

For the purpose of subsequent measurement, financial assets other than those designated and effective as hedging instruments are classified into the following categories upon initial recognition:

- Loans and receivables;
- Financial assets at Fair Value Through Profit or Loss ('FVTPL');
- Held-To-Maturity ('HTM') investments; or
- Available-For-Sale ('AFS') financial assets.

All financial assets except for those at FVTPL are subject to review for impairment at least at each reporting date to identify whether there is any objective evidence that a financial asset or a group of financial assets is impaired. Different criteria to determine impairment are applied for each category of financial assets, which are described below.

All income and expenses relating to financial assets that are recognised in the Statement of Profit or Loss and Other Comprehensive Income are presented within finance costs, finance income or other financial items, except for impairment of trade receivables which is presented within other expenses.

Loans and Receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. After initial recognition, these are measured at amortised cost using the effective interest method, less provision for impairment. Discounting is omitted where the effect of discounting is immaterial. The Group's cash and cash equivalents, trade and most other receivables fall into this category of financial instruments.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(s) Financial Instruments (continued)

Individually significant receivables are considered for impairment when they are past due or when other objective evidence is received that a specific counterparty will default. Receivables that are not considered to be individually impaired are reviewed for impairment in groups, which are determined by reference to the industry and region of a counterparty and other shared credit risk characteristics. The impairment loss estimate is then based on recent historical counterparty default rates for each identified group.

Financial Assets at FVTPL

Financial assets at FVTPL include financial assets that are either classified as held for trading or that meet certain conditions and are designated at FVTPL upon initial recognition. All derivative financial instruments fall into this category, except for those designated and effective as hedging instruments, for which the hedge accounting requirements apply.

Assets in this category are measured at fair value with gains or losses recognised in the Statement of Profit or Loss and Other Comprehensive Income. The fair values of financial assets in this category are determined by reference to active market transactions or using a valuation technique where no active market exists.

HTM Investments

HTM investments are non-derivative financial assets with fixed or determinable payments and fixed maturity other than loans and receivables. Investments are classified as HTM if the Group has the intention and ability to hold them until maturity.

HTM investments are measured subsequently at amortised cost using the effective interest method. If there is objective evidence that the investment is impaired, determined by reference to external credit ratings, the financial asset is measured at the present value of estimated future cash flows. Any changes to the carrying amount of the investment, including impairment losses, are recognised in profit or loss.

AFS financial assets

AFS financial assets are non-derivative financial assets that are either designated to this category or do not qualify for inclusion in any of the other categories of financial assets.

All AFS financial assets are measured at fair value. Gains and losses are recognised in other comprehensive income and reported within the AFS reserve within equity, except for impairment losses and foreign exchange differences on monetary assets, which are recognised in profit or loss. When the asset is disposed of or is determined to be impaired the cumulative gain or loss recognised in other comprehensive income is reclassified from the equity reserve to profit or loss and presented as a reclassification adjustment within other comprehensive income. Interest calculated using the effective interest method and dividends are recognised in profit or loss within 'finance income'.

Reversals of impairment losses for AFS debt securities are recognised in profit or loss if the reversal can be objectively related to an event occurring after the impairment loss was recognised. For AFS equity investments impairment reversals are not recognised in profit or loss and any subsequent increase in fair value is recognised in other comprehensive income.

Classification and subsequent measurement of financial liabilities

The Group's financial liabilities include borrowings, trade and other payables and derivative financial instruments.

Financial liabilities are measured subsequently at amortised cost using the effective interest method, except for financial liabilities held for trading or designated at FVTPL, that are carried subsequently at fair value with gains or losses recognised in profit or loss. All derivative financial instruments that are not designated and effective as hedging instruments are accounted for at FVTPL.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(t) Provisions and employee leave benefits

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

When the Group expects some or all of a provision to be reimbursed, for example under an insurance contract, the reimbursement is recognised as a separate asset but only when the reimbursement is virtually certain. The expense relating to any provision is presented in profit or loss net of any reimbursement.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the reporting date using a discounted cash flow methodology. The risks specific to the provision are factored into the cash flows and as such a risk-free government bond rate relative to the expected life of the provision is used as a discount rate. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects the time value of money and the risks specific to the liability. The increase in the provision resulting from the passage of time is recognised in finance costs.

Employee leave benefits

Liabilities for wages and salaries, including non-monetary benefits, annual leave and accumulating sick leave expected to be settled within 12 months of the reporting date are recognized in respect of employees' services up to the reporting date. They are measured at the amounts expected to be paid when the liabilities are settled. Expenses for non-accumulating sick leave are recognized when the leave is taken and are measured at the rates paid or payable. (u) Share-based payment transactions.

The Group provides benefits to employees (including Key Management Personnel) in the form of share-based payments, whereby employees render services in exchange for shares or rights over shares (equity-settled transactions).

The Group has in place an Employee Share Option Plan (ESOP) which provides benefits to Senior Executives.

The cost of these equity-settled transactions with employees is measured by reference to the fair value of the equity instruments at the date at which they are granted. The fair value is determined by an external valuer using a binomial model.

In valuing equity-settled transactions, no account is taken of any vesting conditions, other than conditions linked to the price of the shares of Avita Medical Limited (market conditions) if applicable.

The cost of equity-settled transactions is recognised, together with a corresponding increase in equity, over the period in which the performance and/or service conditions are fulfilled (the vesting period), ending on the date on which the relevant employees become fully entitled to the award (the vesting date).

At each subsequent reporting date until vesting, the cumulative charge to profit or loss is the product of:

- (i) the grant date fair value of the award;
- (ii) the current best estimate of the number of awards that will vest, taking into account such factors as the likelihood of employee turnover during the vesting period and the likelihood of non-market performance conditions being met; and
- (iii) the expired portion of the vesting period.

The charge to profit or loss for the period is the cumulative amount as calculated above less the amounts already charged in previous periods. There is a corresponding entry to equity.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(u) Share-based payment transactions (continued)

The expense recognised by Avita Medical Limited in relation to equity-settled awards only represents the expense associated with grants to employees of the parent. The expense recognised by the Group is the total expense associated with all such awards.

Until an award has vested, any amounts recorded are contingent and will be adjusted if more or fewer awards vest than were originally anticipated to do so. Any award subject to a market condition is considered to vest irrespective of whether or not that market condition is fulfilled, provided that all other conditions are satisfied.

If the terms of an equity-settled award are modified, as a minimum an expense is recognised as if the terms had not been modified. An additional expense is recognised for any modification that increases the total fair value of the share-based payment arrangement, or is otherwise beneficial to the employee, as measured at the date of modification.

If an equity-settled award is cancelled, it is treated as if it had vested on the date of cancellation, and any expense not yet recognised for the award is recognised immediately. However, if a new award is substituted for the cancelled award and designated as a replacement award on the date that it is granted, the cancelled and new award are treated as if they were a modification of the original award, as described in the previous paragraph.

The dilutive effect, if any, of outstanding options is reflected as additional share dilution in the computation of diluted earnings per share.

(v) Contributed equity

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

(w) Loss per share

Basic loss per share is calculated as net loss attributable to members of the parent, adjusted to exclude any costs of servicing equity (other than dividends), divided by the weighted average number of ordinary shares, adjusted for any bonus element.

Diluted loss per share is calculated as net loss attributable to members of the parent, adjusted for:

- costs of servicing equity (other than dividends);
- the after tax effect of dividends and interest associated with dilutive potential ordinary shares that have been recognised as expenses; and
- other non-discretionary changes in revenues or expenses during the year that would result from the dilution of potential ordinary shares;

divided by the weighted average number of ordinary shares and dilutive potential ordinary shares, adjusted for any bonus element.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(x) Going Concern

These financial statements have been prepared on the basis of going concern, which contemplates the continuity of normal business activities and the realisation of assets and settlement of liabilities in the ordinary course of business. During the financial year ended 30 June 2015, the Group has generated a loss for the period of \$7,107,496 (2014: \$5,147,391) and the Group has used cash in operations of \$6,407,437 (2014: \$6,924,939).

The Group has prepared a detailed cashflow forecast which includes the assumption that the Group will raise funds in the next twelve months. The Directors are confident that they will be able to successfully raise funds as required.

Should the Group not be successful in obtaining further funding in the next twelve months it may not be able to realise its assets and extinguish its liabilities in the normal course of business and at amounts stated in the financial report. This financial report does not include any adjustments relating to the recoverability and classification of recorded asset amounts or to the amounts and classification of liabilities that may be necessary should the Company be unable to continue as a going concern.

3. SIGNIFICANT ACCOUNTING JUDGEMENTS, ESTIMATES AND ASSUMPTIONS

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts in the financial statements. Management continually evaluates its judgements and estimates in relation to assets, liabilities, contingent liabilities, revenue and expenses. Management bases its judgements and estimates on historical experience and on other various factors it believes to be reasonable under the circumstances, the result of which form the basis of the carrying value of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions and conditions.

Management has identified the following critical accounting policies for which significant judgements, estimates and assumptions are made. Actual results may differ from these estimates under different assumptions and conditions and may materially affect financial results or the financial position reported in future periods.

(i) Significant accounting estimates and assumptions

Share-based payment transactions

The Group measures the cost of equity-settled transactions with employees by reference to the fair value of the equity instruments at the date at which they are granted. The fair value is determined by an external valuer using a binomial model, using the assumptions detailed in note 17. The accounting estimates and assumptions relating to equity-settled share-based payments would have no impact on the carrying amounts of assets and liabilities within the next annual reporting period but may impact expenses and equity.

Estimation of useful lives of assets

The estimation of the useful lives of assets has been based on historical experience. In addition, the condition of the assets is assessed at least once per year and considered against the remaining useful life. Adjustments to useful lives are made when considered necessary. Depreciation charges are included in note 4(e).

Significant accounting judgements

Impairment of non-financial assets other than goodwill

The Group assesses impairment of all assets at each reporting date by evaluating conditions specific to the Group and to the particular asset that may lead to impairment. These include product and manufacturing performance, technology, economic and political environments and future product expectations. If an impairment trigger exists the recoverable amount of the asset is determined. This involves value in use calculations, which incorporate a number of key estimates and assumptions.

Taxation

The Group's accounting policy for taxation requires management's judgement as to the types of arrangements considered to be a tax on income in contrast to an operating cost. Judgement is also required in assessing whether deferred tax assets and certain deferred tax liabilities are recognised on the consolidated statement of financial position. Deferred tax assets, including those arising from unrecouped tax losses, capital losses and temporary differences, are recognised only where it is considered more likely than not that they will be recovered, which is dependent on the generation of sufficient future taxable profits.

Assumptions about the generation of future taxable profits depend on management's estimates of future cash flows. These depend on estimates of future production and sales volumes, operating costs, capital expenditure, dividends and other capital management transactions. Judgements are also required about the application of income tax legislation. These judgements and assumptions are subject to risk and uncertainty, hence there is a possibility that changes in circumstances will alter expectations, which may impact the amount of deferred tax assets and deferred tax liabilities recognised on the consolidated statement of financial position and the amount of other tax losses and temporary differences not yet recognised. In such circumstances, some or all of the carrying amounts of recognised deferred tax assets and liabilities may require adjustment, resulting in a corresponding credit or charge to profit or loss.

Control over investees

Although Avita Medical Limited held only 15% of the total of the A, B and C class shares of MENA management, the Board determined that it controls MENA due to it holding 70% of the voting rights. This was determined as only A Class shares had voting rights and Avita Medical Limited held 70% of these shares. In addition it had control of the Board with 2 out of 3 seats held by Avita Directors and the agreements specify that MENA's sole purpose is a vehicle to enter foreign markets. Refer to Note 16(a).

Share-based payments expense	13,338	183,214
	3,833,759	3,428,056

5. LOSS PER SHARE

Basic loss per share amounts are calculated by dividing the net loss for the year by the weighted average number of ordinary shares outstanding during the year.

Diluted earnings per share amounts are calculated by dividing the net loss for the year by the weighted average number of ordinary shares outstanding during the year plus the weighted average number of ordinary shares that would be issued on the conversion of all the dilutive potential ordinary shares into ordinary shares.

The following reflects the income and share data used in the basic and diluted loss per share computations:

	2015 \$	2014 \$
Net loss for the period	(7,107,496)	(5,147,391)
Weighted average number of ordinary shares for basic and diluted loss per share	353,085,392	325,308,404

Transactions involving ordinary shares or potential ordinary shares that would change the number of ordinary shares or potential ordinary shares outstanding between the reporting date and the date of the completion of these financial statements are disclosed in note 25 to the financial statements.

A total of 9,441,250 options (2014: 15,423,750) were not included in the dilutive loss per share calculation as they are anti-dilutive.

At 30 June 2015	56,525	15,713	963,007	(1,164)	1,034,081

Tax losses

The Group has income tax losses for which no deferred tax asset is recognised on the consolidated statement of financial position of \$75,329,513 (2014: \$69,401,431) which are available indefinitely for offset against future taxable profits subject to continuing to meet relevant statutory tests. The total losses of the Group are broken down in the following table:

<u>Jurisdiction</u>	Total Losses \$	Relevant Tax Rate %	Relevant Tax \$
Australia	34,049,368	30%	10,214,810
United States	12,039,489	30%	3,611,847
United Kingdom	29,240,656	20.75%	6,067,436
Total	75,329,513		19,894,093

Unrecognised temporary differences

At 30 June 2015, there is no recognised or unrecognised deferred income tax liability (2014: \$nil) for taxes that would be payable on the unremitted earnings of certain of the Group's subsidiaries. The Group has no liability for additional taxation should unremitted earnings be remitted (2014: \$nil).

Tax consolidation

(i) Members of the tax consolidated group and the tax sharing arrangement

Avita Medical Limited and its 100% owned Australian resident subsidiaries formed a tax consolidated group with effect from 1 July 2003. Avita Medical Limited is the parent entity of the tax consolidated group. Members of the group have not entered into a tax sharing arrangement or a tax funding arrangement.

(ii) Tax effect accounting by members of the tax consolidated group

No amounts have been recognised as tax consolidation contribution adjustments in preparing the accounts of Avita Medical Limited.

AVITA MEDICAL LIMITED
 NOTES TO THE FINANCIAL STATEMENTS (continued)
 FOR THE YEAR ENDED 30 JUNE 2015

7. CURRENT ASSETS – CASH AND CASH EQUIVALENTS

	2015 \$	2014 \$
Cash at bank and in hand	247,640	765,692
Short-term deposits	2,718,915	2,882,698
	<u>2,966,555</u>	<u>3,648,390</u>

8. CURRENT ASSETS – TRADE AND OTHER RECEIVABLES

	2015 \$	2014 \$
Trade receivables	650,502	507,020
Allowance for doubtful debts	-	(9,837)
	<u>650,502</u>	<u>497,183</u>
Other receivables	854,940	2,049,756
Carrying amount of trade and other receivables	<u>1,505,442</u>	<u>2,546,939</u>

(a) Allowance for impairment loss

Trade receivables are non-interest bearing and are generally on 30-90 day terms. An allowance for impairment loss is made when there is objective evidence that the Group will not be able to collect the debts. Bad debts are written off when identified. Financial difficulties of the debtor, default payments or debts more than 90 days overdue are considered objective evidence of impairment. The amount of the impairment loss is the receivable carrying amount compared to the present value of estimated future cash flows, discounted at the original effective interest rate.

A gain of \$9,837 (2014: gain \$164,450) has been recognised by the Group in the current year on recovery of these previously impaired receivables.

Movements in the allowance for impairment loss were as follows:

	2015 \$	2014 \$
At 1 July	9,837	174,287
Received during the year	(9,837)	(164,450)
Charge for the year	-	-
At 30 June	<u>-</u>	<u>9,837</u>

AVITA MEDICAL LIMITED
 NOTES TO THE FINANCIAL STATEMENTS (continued)
 FOR THE YEAR ENDED 30 JUNE 2015

8. CURRENT ASSETS – TRADE AND OTHER RECEIVABLES (continued)

At 30 June, the ageing analysis of trade receivables is as follows:

		Total	0-30 days	31-60 days	61-90 days	+91 days PDNI*	+91 days CI**
2015	Consolidated	650,502	396,334	145,994	87,384	20,790	-
2014	Consolidated	507,020	297,308	164,803	8,974	25,413	10,522

* Past due not impaired ("PDNI")

** Considered impaired ("CI")

Receivables past due but not considered impaired are: \$20,790 (2014: \$25,413). Payment terms on these amounts have not been re-negotiated however each operating unit has been in direct contact with the relevant debtor and is satisfied that payment will be received in full.

Other balances within trade and other receivables which have similar terms as trade receivables do not contain impaired assets and are not past due. It is expected that these other balances will be received when due.

(b) Fair value and credit risk

Due to the short term nature of these receivables, their carrying value is assumed to approximate their fair value. The maximum exposure to credit risk is the fair value of receivables. Collateral is not held as security, nor is it the Group's policy to transfer (on-sell) receivables to special purpose entities.

(c) Foreign exchange and interest rate risk

Detail regarding foreign exchange and interest rate risk exposure is disclosed in note 19.

9. CURRENT ASSETS – INVENTORIES

	2015 \$	2014 \$
Raw materials and components at cost	293,084	312,407
Finished goods at cost	301,433	469,829
Total inventories at cost	594,517	782,236

A provision of \$nil (2014: \$nil) has been allocated against raw materials to reduce the carrying amount of certain inventory items to nil net realisable value. The change in provision of inventory has been included in the cost of sales line item as a cost of inventories in the consolidated statement of profit or loss and other comprehensive income.

Inventory expense

Inventories recognised as an expense as a result of expiration for the year ended 30 June 2015 totalled \$72,902 (2014: \$114,954). This expense has been included in the cost of sales line item as a cost of inventories.

Employee benefits

- (i) A provision is recognised for annual leave due to employees at the end of the year.
- (ii) A provision is recognised for long service leave due to employees at the end of the year.

13. CONTRIBUTED EQUITY

	2015 \$	2014 \$
<i>Ordinary shares</i>		
Authorised, issued and fully paid	117,044,332	111,441,930

Fully paid ordinary shares carry one vote per share and carry the right to dividends.

<i>Movement in ordinary shares on issue</i>	Number	\$
At 1 July 2014	325,308,404	111,441,930
New shares	99,641,609	6,177,780
Capital issue costs		(575,378)
At 30 June 2015	424,950,013	117,044,332

AVITA MEDICAL LIMITED
 NOTES TO THE FINANCIAL STATEMENTS (continued)
 FOR THE YEAR ENDED 30 JUNE 2015

13. CONTRIBUTED EQUITY (continued)

Capital management

When managing capital, management's objective is to ensure the entity continues as a going concern as well as to maintain optimal returns to shareholders and benefits for other stakeholders. Management also aims to maintain a capital structure that ensures the lowest cost of capital available to the entity.

The Group regularly reviews the capital structure and seeks to take advantage of available opportunities to improve outcomes for the Group and its shareholders.

During 2015, no dividends were paid and management has no plans to commence the payment of dividends. Management has no current plans to issue further shares on the market but will continue to assess market conditions and the company's cash flow requirements to ensure the company is appropriately funded.

The Group monitors capital on the basis of the gearing ratio, however there is no significant external borrowing at the reporting date. Neither the Company nor any of the subsidiaries are subject to externally imposed capital requirement.

14. ACCUMULATED LOSSES AND RESERVES

(a) Movements in accumulated losses were as follows:

	2015 \$	2014 \$
Balance 1 July	(106,602,169)	(101,706,766)
Net loss attributable to owners of Avita Medical Limited	(7,107,496)	(5,147,391)
Transfer from expired / lapsed options	252,025	251,988
Balance 30 June	(113,457,640)	(106,602,169)

(b) Nature and purpose of reserves

Option premium reserve

The option premium reserve is used to record the value of acquisition options prior to the change in the Company's principal activity in 2002 and the options issued on the acquisition of Visiomed Group Ltd. As these options are no longer exercisable, the value of this reserve has been transferred to accumulated losses.

Employee equity benefits reserve

The employee equity benefits reserve is used to record the value of share based payments provided to employees, including Key Management Personnel, as part of their remuneration. Refer to note 18 for further details of these plans.

Foreign currency translation reserve

The foreign currency translation reserve is used to record exchange differences arising from the translation of the financial statements of foreign subsidiaries.

				<u>4,643,888</u>	<u>4,643,888</u>

(b) Ultimate parent

Avita Medical Limited is the ultimate parent entity in the wholly-owned group.

(c) Key Management Personnel

The total remuneration paid to key management personnel of the Group during year is detailed below

	2015 \$	2014 \$
Short-term employee benefits	2,143,212	1,870,650
Post-employment employee benefits	130,677	118,701
Share-based payment	13,338	156,099
Total compensation	<u>2,287,227</u>	<u>2,145,450</u>

Refer to the remuneration report contained the Directors' Report for details of the remuneration paid or payable to each member of the Group's key management personnel for the year ended 30 June 2015.

(d) Transactions with related parties

Subsidiaries of the Group:

As at the reporting date of 30 June 2015, Avita Medical Europe Ltd had a receivable balance of \$nil (2014: \$333,887) from Avita Medical Italia Srl.

During the period inter-company sales were made of \$2,399 (2014: \$16,178) by Avita Medical Europe Ltd to Avita Medical Italia Srl. These have been eliminated on consolidation.

During the reporting period inter-company other revenue were made of \$1,437,192 (2014: nil) by Avita Medical Europe Ltd and Avita Medical Americas LLC to Avita Medical Limited. These have been eliminated on consolidation.

Employees

Contributions to superannuation funds on behalf of employees are disclosed in note 4(g).

Terms and conditions of transactions with related parties

Outstanding balances at year end are unsecured, interest free and settlement occurs in cash.

17. SHARE-BASED PAYMENT PLANS

(a) Recognised share-based payment expenses

The expense recognised for employee services received during the year is shown in the table below:

	2015 \$	2014 \$
Expenses arising from equity-settled share-based payment transactions	13,338	183,214
Total expense arising from share-based payment transactions	13,338	183,214

The share-based payment plans are described below. There have been no cancellations or modifications to any of the plans during 2015 and 2014.

(b) Types of share-based payment plans

Employee Share Option Plan (ESOP)

Share options are granted to Senior Executives under the Employee Share Option Plan at the discretion of the Board. The exercise price of the options is based on a weighted average market price of the shares preceding the date of grant. The options vest at the time of grant and the contractual life of each option granted is three years. There are no cash settlement alternatives.

Options are also granted to Directors at the discretion of the Board. The exercise price of the options is based on a weighted average market price of the shares preceding the date of grant. The options vest either at the time of grant or are subject to performance conditions at the discretion of the Board and the contractual life of each option granted is three years. There are no cash settlement alternatives.

(c) Summaries of options granted under ESOP arrangements

The following table illustrates the number (No) and weighted average exercise price (WAEP) of, and movements in, share options issued during the year:

	2015 No	2015 WAEP	2014 No	2014 WAEP
Outstanding at the beginning of the year	15,423,750	0.14	15,498,750	0.14
Expired during the year	(5,282,500)	0.14	(2,750,000)	0.14
Cancelled	-	-	(375,000)	0.14
Granted during the year	-	-	3,750,000	0.155
Lapsed during the year	(700,000)	0.16	(700,000)	0.15
Outstanding at the end of the year	9,441,250	0.146	15,423,750	0.145

As at the date of signing this report, there were 9,441,250 unissued ordinary shares under options represented by:

1,000,000 exercisable at \$0.14 expiring 30 November 2015, issued to the ex Chief Executive Officer at the Annual General Meeting held on 30 November 2010.

1,660,000 exercisable at \$0.14 expiring 30 November 2016, issued to the ex Chief Executive Officer at the Annual General Meeting held on 30 November 2010.

1,406,250 exercisable at \$0.14 expiring 30 November 2017, issued to the ex Chief Executive Officer at the Annual General Meeting held on 30 November 2010.

17. SHARE-BASED PAYMENT PLANS (continued)

375,000 exercisable at \$0.14 expiring 30 November 2018, issued to the ex Chief Executive Officer at the Annual General Meeting held on 30 November 2010.

150,000 exercisable at \$0.15 expiring 9 July 2015, issued to an employee on 9 July 2012.

1,800,000 exercisable at \$0.15 expiring 15 October 2018, issued to the Chief Financial Officer on 15 May 2013.

1,600,000 exercisable at \$0.16 expiring 28 February 2017, issued to several employees on 28 February 2014.

700,000 exercisable at \$0.175 expiring 28 February 2017, issued to an employee on 28 February 2014.

250,000 exercisable at \$0.10 expiring 30 June 2017, issued to the Chief Financial Officer on 15 December 2013.

250,000 exercisable at \$0.12 expiring 30 June 2017, issued to the Chief Financial Officer on 15 December 2013.

250,000 exercisable at \$0.14 expiring 30 June 2017, issued to the Chief Financial Officer on 15 December 2013.

Option holders do not have any right, by virtue of the option, to participate in any share issue of the Company or any related corporate body.

Shares issued as a result of the exercise of options

During the financial year and up to the date of this report, no options were exercised to acquire fully paid ordinary shares in the Company.

(d) Weighted average remaining contractual life

The weighted average remaining contractual life for the share options outstanding as at 30 June 2015 is 3.619 years (2014: 2.312 years).

(e) Range of exercise price

The range of exercise prices for options outstanding at the end of the year was \$0.10 - \$0.175 (2014: \$0.10 - \$0.175).

As the range of exercise prices is wide, refer to section (c) above for further information in assessing the number and timing of additional shares that may be issued and the cash that may be received upon exercise of those options.

(f) Weighted average fair value

The weighted average fair value of options granted during the year was \$nil (2014: \$162,319). The total fair value of the options granted during the year is \$nil (2014: \$162,319).

AVITA MEDICAL LIMITED
 NOTES TO THE FINANCIAL STATEMENTS (continued)
 FOR THE YEAR ENDED 30 JUNE 2015

17. SHARE-BASED PAYMENT PLANS (continued)

(g) Option pricing model: ESOP

Equity-settled transactions

The fair value of the equity-settled share options granted under the ESOP is estimated at the date of grant using a Binomial Model taking into account the terms and conditions upon which the options were granted.

The following table lists the inputs to the models used for the options granted each year:

	2015	2014
Dividend yield (%)	-	0%
Expected volatility (%)	-	61%
Risk-free interest rate (%)	-	2.71%
Expected life of option	-	To maturity
Option exercise price (\$)	-	16c
Weighted average share price at grant date (\$)	-	12.5c

The expected life of the options is based on historical data and is not necessarily indicative of exercise patterns that may occur. The expected volatility reflects the assumption that the historical volatility is indicative of future trends, which may also not necessarily be the actual outcome. No other features of options granted were incorporated into the measurement of fair value.

At year end, of the 2,550,000 options issued to T Rooney, 700,000 are unvested.

 NOTES TO THE FINANCIAL STATEMENTS (continued)
 FOR THE YEAR ENDED 30 JUNE 2015

18. SEGMENT INFORMATION

Operating segments are identified on the basis of internal reports about components of the Group that are regularly reviewed by the chief operating decision maker to allocate resources to the segment and to assess its performance.

The Group's chief operating decision maker has been identified as the Chief Executive Officer.

The Chief Executive Officer reviews the financial and operating performance of the business primarily from a geographic perspective. On this basis, management have identified three reportable operating segments being the Asia Pacific region, the Americas including Canada, the EMEA region (Europe, Middle East and Africa). The Chief Executive Officer monitors the performance of all these segments separately. The Group does not operate in any other geographic location.

The Chief Executive Officer assesses the performance of the operating segments based on a measure of gross margin and net profit before tax.

Unallocated

The following items of income and expense and associated assets are not allocated to operating segments as they are not considered part of the core operations of any segment:

- Corporate revenue
- Corporate charges
- Amortisation of intellectual property

The segment information provided to the Chief Executive Officer for the reportable segments for the year ended 30 June 2015 is as follows:

	<i>Asia Pacific</i> \$	<i>EMEA</i> \$	<i>Americas</i> \$	<i>Total</i> \$
Year ended 30 June 2015				
Revenue				
Sale of goods	2,140,678	609,498	-	2,750,176
Other revenues from external customers		277	5,730	6,007
Interest received	44,043	1,239	149	45,431
Total revenue and other income per consolidated statement of profit or loss and other comprehensive income	2,184,721	611,014	5,879	2,801,614
Segment net operating profit / (loss) before tax				
Reconciliation of segment net result before tax to loss before income tax:	(368,329)	(2,541,337)	(2,649,362)	(4,895,699)
Corporate charges				(2,865,465)
Loss before income tax				(7,761,164)

Revenue is attributed to geographic location based on the location of the customers. The percentages of external revenues from external customers that are attributable to foreign countries are as shown below:

	2015 %	2014 %
Australia	72.9	78.2
Other	27.1	21.8
Total revenue	100	100

19. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group's principal financial instruments comprise receivables, payables, cash and short-term deposits.

The Group manages its exposure to key financial risks, including interest rate and foreign currency risk in accordance with the Group's financial risk management policy. The objective of the policy is to support the delivery of the Group's financial targets whilst protecting future financial security.

The main risks arising from the Group's financial instruments are interest rate risk, foreign currency risk, credit risk and liquidity risk. The Group uses different methods to measure and manage different types of risk to which it is exposed. These include monitoring levels of exposure to interest rate and foreign exchange risk and assessments of market forecasts for interest rates and foreign exchange. Ageing analyses and monitoring of specific credit allowances are undertaken to manage credit risk, and liquidity risk is monitored through the development of future rolling cash flow forecasts. The Board reviews and agrees policies for managing each of these risks as summarised below.

Primary responsibility for identification and control of financial risks rests with the Finance Manager under the authority of the Board. The Board reviews and agrees policies for managing each of the risks identified below including foreign currency and interest rate risk, credit allowances and future cash flow forecast projections.

At the reporting date, the Group had the following financial assets and liabilities:

	2015 \$	2014 \$
Financial Assets		
Cash and cash equivalents	2,966,555	3,648,390
Trade and other receivables	1,505,442	2,546,939
Financial Liabilities		
Trade and other payables	(1,047,578)	(1,689,251)
Provisions	(178,704)	(96,965)
Net	3,245,715	4,409,113

19. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (continued)

Risk Exposures and Responses

Interest rate risk

The Group's exposure to market interest rates relates primarily to short-term deposits with a floating interest rate.

At reporting date, the Group had the following mix of financial assets exposed to Australian Variable interest rate risk:

	2015 \$	2014 \$
Financial Assets		
Cash and cash equivalents	2,966,555	3,648,390
Net exposure	2,966,555	3,648,390

The Group's policy is to manage its finance costs and revenue using a mix of fixed and variable interest rates depending on the forecast funding requirements of the Group. At 30 June 2015, \$1,500,000 of the Group's cash balances were at a fixed rate of interest at 2.6% (2014: nil).

The following sensitivity analysis is based on the interest rate exposures in existence at the reporting date. The 1% sensitivity is based on reasonably possible changes over a financial year, using the observed range of historical rates for the preceding 2 year period.

At 30 June 2015, if interest rates had moved, as illustrated in the table below, with all other variables held constant, post tax loss and equity would have been affected as follows:

Judgements of reasonably possible movements:

	Post Tax Loss (Higher)/Lower		Equity Higher/(Lower)	
	2015 \$	2014 \$	2015 \$	2014 \$
+1% (100 basis points)	29,666	36,484	29,666	36,484
-1% (100 basis points)	(29,666)	(36,484)	(29,666)	(36,484)

The movements in loss are due to higher/lower finance revenue from variable rate cash balances.

Foreign currency risk

The Group has investment operations in Europe and the United States. The Group's consolidated statement of financial position can be affected by movements in exchange rates and the Group does not currently hedge this exposure.

The Group also has transactional currency exposures. Such exposures arise from sales or purchases by an operating entity in currencies other than the functional currency.

Approximately 22% (2014: 26%) of the Group's sales are denominated in currencies other than the functional currency, whilst approximately 68% (2014: 64%) of costs are denominated in the functional currency.

AVITA MEDICAL LIMITED
 NOTES TO THE FINANCIAL STATEMENTS (continued)
 FOR THE YEAR ENDED 30 JUNE 2015

19. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (continued)

At 30 June 2015, the Group had the following exposure to foreign currencies:

	2015 \$	2014 \$
Financial Assets		
Cash and cash equivalents	242,567	918,600
Trade and other receivables	315,151	582,042
	<u>557,718</u>	<u>1,500,642</u>
Financial Liabilities		
Trade and other payables	(761,931)	(958,553)
	<u>(204,213)</u>	<u>542,089</u>

The following sensitivity is based on the foreign currency risk exposures in existence at the reporting date. The percentage sensitivity is based on reasonably possible changes over a financial year, using the observed range of historical rates for the preceding 2 year period.

At 30 June 2015, had the Australian Dollar moved, as illustrated in the table below, with all other variables held constant, post tax loss and equity would have been affected as follows:

Judgments of reasonably possible movements:

	Post Tax Loss (Higher)/Lower		Equity Higher/(Lower)	
	2015 \$	2014 \$	2015 \$	2014 \$
AUD/GBP + 10%	(1,345)	1,954	(1,345)	1,954
AUD/GBP – 5%	673	(977)	673	(977)
AUD/USD +10%	22,244	(24,468)	22,244	(24,468)
AUD/USD – 5%	(11,122)	12,234	(11,122)	12,234
AUD/EUR +10%	(477)	(31,695)	(477)	(31,695)
AUD/EUR – 5%	239	15,847	239	15,847

Management believe the reporting date risk exposures are representative of the risk exposure inherent in the financial instruments. The Group has no processes and objectives for managing foreign exchange risks.

Credit risk

Credit risk arises from the financial assets of the Group, which comprise cash and cash equivalents and trade and other receivables. The Group's exposure to credit risk arises from potential default of the counter party, with a maximum exposure equal to the carrying amount of these instruments.

The Group does not hold any credit derivatives to offset its credit exposure.

The Group trades only with recognised, creditworthy third parties, and as such collateral is not requested nor is it the Group's policy to securitise its trade and other receivables.

It is the Group's policy that all customers who wish to trade on credit terms are subject to credit verification procedures including an assessment of their independent credit rating, financial position, past experience and industry reputation. Risk limits are set for each individual customer in accordance with parameters set by the Board. These risk limits are regularly monitored.

AVITA MEDICAL LIMITED
 NOTES TO THE FINANCIAL STATEMENTS (continued)
 FOR THE YEAR ENDED 30 JUNE 2015

19. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (continued)

In addition, receivable balances are monitored on an on-going basis with the result that the Group's exposure to bad debts is not significant.

A significant balance of cash is held in National Australia Bank. This is a highly rated institution which effectively manages its risk profile and therefore the group considers its cash balances to be secure.

There is no concentration of debt amongst the creditors.

Liquidity risk

The Group's objective is to maintain a balance between continuity of funding and flexibility through the use of bank overdrafts, bank loans and finance leases.

The table below reflects all contractually fixed pay-offs and receivables for settlement, repayments and interest resulting from recognised financial assets and liabilities. For all obligations the respective undiscounted cash flows for the respective upcoming fiscal years are presented. Cash flows for financial assets and liabilities without fixed amount or timing are based on the conditions existing at 30 June 2015.

The remaining contractual maturities of the Group's financial liabilities are:

	2015 \$	2014 \$
6 months or less	1,047,578	1,689,251
6-12 months	-	-
1-3 years	-	-
	1,047,578	1,689,251

Maturity analysis of financial assets and liabilities are based on management's expectation.

The risk implied from the values shown in the table below, reflects a balanced view of cash inflows and outflows. Trade payables and other financial liabilities mainly originate from the financing of assets used in our on-going operations such as property, plant, equipment and investments in working capital including inventories and trade receivables. These assets are considered in the Group's overall liquidity risk.

Year ended 30 June 2015	< 6 months \$	6-12 months \$	1-5 years \$	Total \$

Fair Value

The methods for estimating fair value are outlined in the relevant notes to the consolidated financial statements.

Fair Value (Volatility of Share Price Risk)

Volatility of share price through fair value risk is the risk that the Group is exposed to in the fair valuation of the financial liabilities. Volatility of share price is the tendency of the share price to change over time.

Changes in the volatility of the share price will affect the fair value of the financial liabilities. The more volatile the share price is, the higher the fair value placed on the financial liabilities. Conversely, the less volatile the share price is, the lower the fair value placed on the convertible note.

Changes in the interest rates and exchange rates would not have a material effect on the valuation of the financial liabilities at fair value. As such, no change in these two variables has been taken into account when considering the sensitivity of changes in the fair value of the convertible notes. The Group does not have any policy in place to manage share price volatility.

AVITA MEDICAL LIMITED
 NOTES TO THE FINANCIAL STATEMENTS (continued)
 FOR THE YEAR ENDED 30 JUNE 2015

20. COMMITMENTS AND CONTINGENCIES

(a) Operating lease commitments – Group as lessee

The Group has entered into commercial leases on certain properties. These leases have an average life of between 2 and 5 years and include a renewal option in the contracts. There are no restrictions placed upon the lessee by entering into these leases.

Future minimum rentals payable under non-cancellable operating leases as at 30 June are as follows:

	2015 \$	2014 \$
Within one year	266,681	169,889
After one year but not more than five years	638,727	559,758
Total minimum lease payments	905,408	729,647

There are no other commitments and contingencies which require disclosure in this report.

21. AUDITORS' REMUNERATION

The auditors of Avita Medical Limited and its subsidiaries are Grant Thornton Audit Pty Ltd.

	2015 \$	2014 \$

Details of any contingent liabilities of the parent entity	None	None
Details of any contractual commitments by the parent entity for the acquisition of property, plant and equipment	None	None

During the period, the parent entity impaired \$2,238,994 (2014: \$1,600,000) of intercompany loans to subsidiaries and investments in subsidiaries. The impairment charges are eliminated on consolidation.

23. DEED OF CROSS GUARANTEE

The following entities are party to a deed of cross guarantee under which each company guarantees the debts of the others:

Avita Medical Limited
 C3 Operations Pty Ltd
 Visiomed Group Ltd
 Infamed Limited

By entering into the deed, the wholly owned entities have been relieved from the requirement to prepare a financial report and Directors' Report under Class Order 98/1418 (as amended) issued by the Australian Securities and Investments Commission ('ASIC').

The above companies represent a 'Closed Group' for the purposes of the Class Order, and as there are no other parties to the Deed of Cross guarantee that are controlled by Avita Medical Limited, they also represent the 'Extended Closed Group'.

24. EVENTS AFTER THE REPORTING DATE

Post year end, the Company initiated a significant US focused capital raising as a first phase of a planned US market uplist. On 31 August 2015 the company received a positive response from the Biomedical Advanced Research and Development Authority (BARDA) on a proposal to the US federal body exploring the possible use of ReCell under a disaster preparedness programme. Consequently the directors decided to place the US capital raise on hold pending the outcome of negotiations with BARDA. Other than this no matters or circumstances have arisen since the end of the reporting period which significantly affected or may significantly affect the operations of the Group, the results of those operations, or the state of affairs of the Group in future years.
